**We welcome 60 international students together with our hosting students and about 20 international teachers for lectures and workshops at campus Porsgrunn.**

- The main goal for the IUW 2025 in Norway is to give both students and teachers international knowledge about the topic!
- Let students interact with students and give them an opportunity to share their experiences with activities in social work.
- To achieve this we ask every University College to bring a case/an issue with experiences from using activities in social work.
- These cases/issues will be the basis for workshops with students and teachers from different countries, with the purpose of illuminating the cases from different perspectives and – hopefully - generate new solutions.
